

# BESTMIX® LIMS

Manage and analyse your sample results

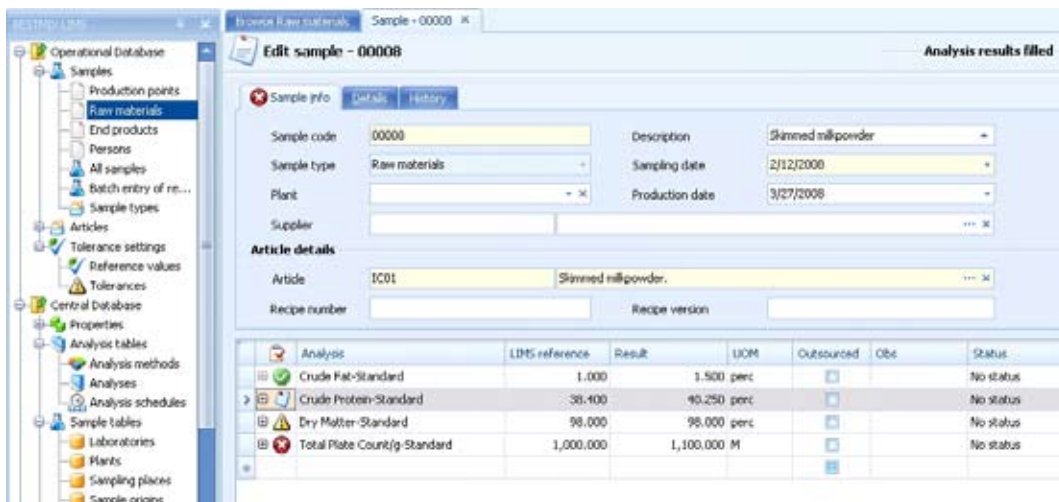

Allows you to keep track of parameters like:

- Nutritional values
- Contaminants
- Microbiology
- Meat species

Quality monitoring gains importance in your business processes:

- Controlling of incoming goods
- Monitoring of production process
- Measuring and evaluating the quality of end products

Using BESTMIX® LIMS means:

- Enhanced quality management
- Increased efficiency
- Saving time
- Comply with legislation and quality standards
